This Emerson Piano is today one of the choice selliar pianos in the whole gamut of instruments made in this land. Its merits have been explained and lauded in these columns in most unequivocal terms ever since the day when its present scales and improvements were piaced upon the market. People have frequently asked us: "What is all this talk in the Musical Courier about the beauty and the scale and the tone and touch of the Emerson Piano?" and we tell them today once more what we said then: "Go and test them yourselves, and you will inderse what the Musical Courier has stated, if you know anything about the subject." A PLAIN TALK. The pathway which we follow through this world will lead us to success if illumined by the lights of reason and iruth. Unless we have these lights to guide us we are in streat danger of being weeked in the voyage of life, Good common sense bears a close affinity to reason; it is the orb from which the rays of reason emanate. So common sense and reason combine to teach us what is richt and the inspirations of truth give us the courage and inclination to follow our convictions. So, readers, when you see something advertised for nothing, when representations are made to you that you can have fine garments at prices commonly charged for low grade goods, when you are told that you can dress tastily and richly for a mere "song," let your common sense and reason dispel such illusions and let the courage of your conviction dictate the proper course for you to pursue. I will give you full value for your money. I never allow a garment to leave my estab ishment that is imperfect in style, fit, finish or workmanship. I keep no sheddy misterials. My customers all become permanent because I deal candidly and fairly with them and will do so with you should you favor me with your patronage.

REPUBLICAN SENATORIAL CAUCUS. They Recommend Every Effort Be Made to Have the Will of the People Carried Out.

The republican Senate caucus committee met this morning in the room of the committee on Panama scandals is today greater than ever and Page 10 claims, and discussed the situation in the north-the wildest reports are affect of monarchist western states, where the election of United plots and coming arrests. It is asserted that State s Senators will soon be held. The full Herz has been in communication in London States Senators will soon be held. The full committee, composed of Senators Hoar, Mc-Millan, Chandler, Teller and Mitchell, was present. A free and full discussion of the situation was had, and it was decided to give the republicans of the states in question all the moral support possible, and to urge the republicans to watch every move made by the democrats with a view to securing democratic Senators.

Herz has been in communication in London with agents of the Count of Paris and that the exposure of the Thierree checks is directly attributable to royalist influence.

Another rumer is that the efficials and deputies, as well as civilians, connected with the Fanama scandal have had it intimated to them that their salvation lies in an esponsal of royalist schemes and that all their effenses will be condoned if they will consent to betray the republic. "I do not consider the chances of the democrats in electing forty-four Senators to be one in a hundred," said Mr. Chandler, talking about the situation. "The republicans now have a majority of eight and it will take four democratic Senators to overturn it. The only sure additional votes they will have will be the Senators to overturn it. The only sure stors from New York and Wisconsin. If Mr. Kyle is not to be counted with the democrats they will have but forty-one members: if he is with them, forty-two. In some of these states the democrats are claiming the republicans have an absolute majority, and in others it appears the populists have the balance.
